EDUCATION

University of Tennessee

Bachelor of Science in Computer Science, Minor in Data Science
Chancellor's & Engineering Honors Program

Knoxville, TN

Expected Graduation: May 2027
Dean's List Scholar 2023-Present

EXPERIENCE

Knoxville Utilities Board | Applications Developer Student | EmberJS | Bootstrap | Tailwind CSS 2025

- Developed and enhanced customer-facing web applications, improving accessibility and user experience
- Implemented interactive forms and optimized UI components for faster load times

Lawrence Berkeley National Laboratory | Science Undergraduate Lab Intern 2024

- Collaborated with scientists on C++ simulation software for ferroelectric materials (FerroX)
- Incorporated and tested advanced time-integration methods (SUNDIALS) to improve computational efficiency
- Optimized simulation performance, significantly reducing runtime while ensuring accuracy

University of Tennessee Vol Study Center | Peer Learning Assistant 2024

- Tutored undergraduate students in computer science and mathematics
- Developed clear explanations and strategies to help students solve programming problems

LEADERSHIP & INVOLVEMENT

UTK Hack4Impact | Learning-Based Project Tech Lead 2024

- Lead a team of incoming developers to build internal software solutions for non-profits
- Coordinated sprint-style workflow and weekly stand-up meetings
- Mentored developers on best practices and code review processes

Society of Women Engineers | Treasurer | Mentor 2023–Present
Treasurer

- Managed organization funds, including creating the annual budget and overseeing transactions

SWEeties Mentor

- Mentored underclassmen in career development and networking skills
- Provided guidance on navigating initial college experiences

Event Experiments Chair

- Collaborated with officer board to coordinate Tomorrow's Engineers Today event
- Designed engaging engineering experiments for middle and high-school students

PERSONAL PROJECTS

Sudoku Solver | Python — Built a recursive algorithm to solve 9x9 Sudoku puzzles efficiently

Spot It Game | JS | HTML | CSS — Developed a digital version of the matching game *Spot-it*

Project Euler Problems | C++ — Solved complex algorithmic and mathematical problems to strengthen programming skills

Portfolio Website | JS | HTML | CSS | Figma — Designed and implemented a personal portfolio site to showcase projects and art

DUNE Landing Page | VITE/REACT/JS | Tailwind CSS | Figma — Built a responsive landing page for a local startup, incorporating design best practices

AWARDS & HONORS

- UT-Battelle, John Tummins Memorial, Volunteer, and HOPE Scholarships (2023–Present)
- 1st Place, Pellissippi State CC Coding Competition (2021)
- 1st Place, TN Regional Science Olympiad (2023); 1st Place, TN Regional Science Bowl (2021)
- Farragut High School Departmental Award: Outstanding Student in Science (May 2023)
- Full Scholarship, Governor's School for Emerging Technologies (June 2021)

TECHNICAL SKILLS

- Languages: C++, Python, HTML/CSS/JavaScript, EmberJS, React/Vite
- Developer Tools: Vim, VS Code, GitHub, Bash, Linux, Figma, Jupyter Notebook
